THE PRESIDENT'S REPLY.

The telegram which Mr. Bryan sent to President Roosevelt on Tuesday, calling on him to prove the charge against Governor Haskell and demanding "fair, honorable treatment from those who are in charge of the republican campaign," has brought forth response from the White House.

This response took the form of a letter addressed last night by President Roosevelt to Mr. Bryan, by which the president not only reiterates his belief that Governor Haskell has had "relations" with the Standard Oil Company, but even goes further and accuses Governor Haskell of "utter unfitness for any position of trust," or for "association with any man anxious to make an appeal on a moral issue to the American people." The president asserts that this "has been abundantly shown, wholly irrespective of this action of his in connection with the Standard Oil interests," and then utters this declaration:

"As an American citizen who prizes his Americanism and his citizenship far above any question of partisanship I regard it as a scandal and a disgrace that Governor Haskell should be connected with the management of any national campaign."

In his pronunciamento of last night, well as in his statement of Sunday evening, President Roosevelt "purposely" makes no specific allusion to the "Ohio matter." After making this assertion the president lays emphasis upon the attitude of Governor Haskell toward the Prairie Oil and Gas Company; declares that he (the president) has seen no defense of this action attempted by Governor Haskell, and then says:

"It thus appears that his action was as inexcusable as it was wanton," except on the theory that he wanted to protect "the interests of a great corporation against the law." Then the president proceeds to contrast the attitude of Mr. Bryan toward Governor Haskell with that of Judge Taft toward Senator Foraker, declaring "there was no such convincing proof against Senator Foraker" in July of last year, when Mr. Taft wrote the letter which the president made public Sunday evening, as there was against Governor Haskell when he was made treasurer of the democratic national committee. Then the president accuses Mr. Bryan of having made Governor Haskell the campaign treasurer when the "evidence" was "a hundredfold clearer" against Governor Haskell than that which Judge Taft had against Senator Foraker last year.

Passing on without further comment about the Standard Oil matter and without offering the proof demanded by Mr. Bryan, the president discusses the attitude of Governor Haskell toward the Oklahoma State University by alleging that the governor had "prostituted it" to base purposes. The latter portion of the president's remarkable letter is intended as a reply to the closing part of Mr. Bryan's telegram demanding "fair and honorable treatment" from those in charge of the republican campaign.

The president says that he, the president, is not in charge of the campaign, but is only "greatly interested in it."

The president says that he has shown that Governor Haskell is "unworthy of any position in our public life," and that no further investigation of these facts is required."

The president then undertakes to give his ideas of the attitude of the democratic party in the present campaign. In doing so, he accuses Mr. Bryan of only advocating "measures that sound more radical" than those undertaken by the republicans, and then asserts that "they have the prime defect that in practice they would not work."

The president declares that he will put "Mr. Taft's deeds against Mr. Bryan's words," adding:

"I ask that Mr. Taft be judged by all his deeds, for he wishes none of them forgotten. I ask that you be judged by the words you wish remembered, and by the words that seemingly you and your party now desire to have forgotten."

Then, after telling Mr. Bryan that he, the president, is of the opinion that "no law-defying corporation has anything to fear from Mr. Bryan, the president closes his letter with an appeal to the voters to support Mr. Taft because he stands for material prosperity and "the moral uplift of the nation."

BLUNDER SAVES BURGLARS.

While attempting to telephone a bank president that cracksmen were drilling the safe in his bank, the telephone operator at Goehner, Nebr., Tuesday night, made a mistake and rang the telephone in the bank itself instead of ringing up the banker's residence.

The burglars answered the telephone and were given the information that their movements had been discovered and that a posse had been formed and was watching the front door of the bank, while another posse was forming to guard the rear door. The burglars thanked the telephone operator and escaped through the rear door before the mistake was discovered.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

THURSDAY EVENING, SEPT. 24, 1908

REPUBLICAN papers this morning were ablaze with handbill headlines over President Roosevelt's attempt to substantiate his charges to the effect that Governor Haskell has been working in the interests of the Standard Oil Company. His answer to Mr. Bryan's challenge is by no means satisfactory, as the president states nothing of his own knowledge, but quotes magazine articles and brings forward hearsay evidence that would be thrown out in any court of justice. Governor Haskell, it will be seen, has made satisfactory answers to all of Mr. Roosevelt's allegations. But even should he fail to convince rabid partizans of his innocence, the query of Mr. Kern, democratic candidate for vice president, in his speech in Baltimore last night, is pertinent:

Who is treasurer of the republican national committee?" asked Mr. Kern. "Why, a Wall street man, George Ramsey Sheldon, who is a multimillionaire and director in 20 corporations, some of which are illegal. There is an assistant treasurer in Chicago, F. W. Upham, who is a member of the Board of Assessors of Chicago and who reduced the assessment of the street railways of his city from $19,000,000 to $9,000,000 When Mr. Roosevelt made his attack yesterday upon Governor Haskell, was he aware that Mr. Dupont is one of the officials of the national republican committee and that the trust with which Mr. Dupont is connected is under indictment? What will Mr. Taft, if elected president, say to Mr. Dupont if the latter asks that the indictment against his company be quashed?"

The president's persistency in attempting to bolster up Mr. Taft's candidacy has long since made people tired. He could not close his statement concerning Governor Haskell without appealing to the country to support his favorite. The following are his words:

Above all, I ask for support of Judge Taft because he stands for the moral uplift of the nation, because his deeds have made good his words, and because the policies to which he is committed are of immeasurable consequences alike to the honor and the interest of the whole American people.

HOUSEKEEPERS in America who have worried over poor help may find consolation in an article on "The Eternal Servant Question" in a recent number of "The Buenos Ayres Herald," by a writer who doubts the existence of good servants. The servant question, he says, "is the one grave preoccupation of the women of the federal capital, and the staple of conversation at the midday reunions, when the mere man is absent in the city, toiling for the bread that perisheth, or more probably dicing at the club for coffee and cigars. The insistent spectre is, 'servus domesticus,' the common or garden variety house servant." In describing the servant of Buenos Ayres, the writer says, "Cook, housemaid, waitress, chambermaid or nurse, individually and collectively, they are the speck on the ripe fruit of domestic felicity, the fly in the ointment, anything and everything you please that is bad and slovenly and untrustworthy, everything save good servants."

DR. CHARLES PERRIER, in an article based on observation made in French penal institutions, says that criminals are for the most part of medium height. Thieves, he says, he found to be almost exclusively of small stature and beggars nearly always of medium or slightly under that height. "It is seldom," he says, "that a fully developed beggar nature can be found in a large frame." Murderers, on the other hand, his observations prove to be above the average in size. All the prisoners under punishment for arson and for counterfeiting measured by him came under the head of "small." These details, the writer says, while they may establish certain facts as to French criminals, may be valueless when applied to the underworld in other countries. Still the police in this country may derive some knowledge from Dr. Perrier's observations.

AN EPOCH in the world-wide battle between science and disease is to be marked by the International Congress on Tuberculosis, which is in session in the National Museum, at Washington. The congress is divided into seven sections dealing with different aspects of the problem, and experts from all over the world have been arriving for a week or more to take part. Elaborate preparations have been made by a special committee of 100 noted members of the American association, and prizes will be given for the best exhibits contributed by any state or nation illustrating the most effective organization for the control of the disease, o the best pathology, the best laws to control, etc.

AS ANTICIPATED, it has been officially announced that the Richmond Horse Show Association will hold no exhibition this fall. The horse show business has been run into the ground. There have been too many of them and they have been held too close together.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Sept. 24.

James B. Foley and his wife Ellen, went into a barber shop at 655 Pennsylvania avenue, southeast this morning. Foley shot Vincenzo Lieuno, an Italian barber, three times in the neck; Mrs. Foley, at the same time beat him over the head with a chair. It is claimed that the Italian ruined their daughter, who is in a hospital caring for the child. It is believed that the Italian will die.

Tomorrow, which will be the fifth day of the meeting of the national bank examiners, the subjects for discussion will be the best methods of verifying the bank's copy of its reports of its condition and of its earnings and dividends. Also the best methods of figuring the reserve of national banks, in city, country, and reserve city banks.

Albert P. Bandy has been appointed postmaster at Occupacia, Essex county, Va., vice Mr. O. M. Minnis removed.

Complaint has been filed with the Interstate Commerce Commission by Swift & Co., the Chicago meat packers, against the Southern, Atlantic Seaboard and other railroads alleging unjust and unreasonable rates from North Carolina via Vicksburg.

Because of a large number of cases of cholera in Manila Secretary Metcalf cabled instructions today to Admiral Sperry, commander-in-chief of the Atlantic fleet, not to give either officers or men shore liberty there so long as any case of cholera exists in the city. The fleet is expected to arrive at Cavite, the new naval station, on October 2 for a stop of nine days for coal and cleaning and painting the ships. A cablegram from Governor General Smith today says that between 8 o'clock this morning and 4 o'clock this afternoon there were but 16 new cases discovered as compared with 29 for the same hours yesterday.

President Roosevelt was at his desk unusually early today and was enjoying the reading of a large number of telegrams congratulating him upon his reply to Bryan when he was interrupted by a personal request to smooth out the annoying factional wrinkles among West Virginian republicans. U. S. District Judge Dayton and Congressman Hubbard, said to represent the Scherr factions and U. S. Senator Scott and Congressman Sturgis, said to represent the Swisher factions, discussed with the president gubernatorial situation. It appears that W. E. Glasscock, who has been selected as the compromise candidate for governor, holds the lucrative position of internal revenue collector. The president will do what he can to aid in the adjustment of differences in the state but he has been placed in a very embarrassing position, because he has just demanded and received the resignation of Second Assistant Postmaster General McCleary, who is a candidate for the Congress nomination in the second Minneapolis district. The law is very explicit on the part of federal officeholders taking an active part in politics, and particularly in reference to a federal officeholder being a candidate for another office.

Convinced of the practability of the heavier-than-air flying machines for use in naval operations the Navy Department will shortly advertise to the world specifications for proposals for the purchase of several such craft. Lieut. George C. Sweet, of the bureau of equipment, who was detailed by Secretary Metcalf to observe the performances of the Wright aeroplane at Fort Meyer, is now working on the specifications.

The president today accepted an invitation tendered him to attend the unveiling of the Sheridan statue in this city November 25.

The application of the Baltimore and Ohio Railroad for a preliminary injunction restraining the Interstate Commerce Commission from enforcing an order with regard to the distribution of coal cars, which was argued in the United States Circuit Court in Baltimore on Wednesday, was denied yesterday in a ruling of the three judges who sat in the case.

Joseph Small accidently shot his wife while on the hills above Barton, Md., on Monday afternoon, while the two were out hunting, Mrs. Small being an excellent marksman and ardent hunter. The gun was accidently discharged, the load entering Mrs. Small's head. Small picked up his wife and carried her to Barton. She is not expected to recover.

Charles Knight, a Baltimore and Ohio brakeman, residing near Terra Alta, W. Va., was taken to Cumberland, Md., yesterday with a fractured skull and bad burns and bruises. He held his lantern down into an oil tank car which was being used to haul water to supply engines on the railroad during the drought, and the gas from the oil caused the explosion which hurled Knight many feet away.

In the presence of his wife, who had just told him good-by, intending to begin proceedings for divorce, Francisco Milian, mayor of West Tampa, Fla., committed suicide yesterday by placing the muzzle of a revolver in his mouth and discharging two bullets through his brain. Milian had served eight terms as mayor of West Tampa. He was a Cuban by birth.

Thomas L. Watson was yesterday made superintendent of the State Geological Survey, which was created at the last session of the General Assembly. The board met in the office of the governor. The board decided to have Dr. Watson begin work at once. R. M. Thornton, formerly a student at the University of Virginia, now taking a special course at Johns Hopkins University, is to be assistant superintendent.

One hundred and ten men out of a total of 137 persons aboard the ship Star of Bengal were drowned last Sunday afternoon when the vessel was torn from the hold of protecting tugs and dashed ashore at Helm Point, at the southeast end of Coronation Island, near Wrangel, Alaska. The news was brought by the tug Hattie Gage, Captain Farrer, which carried the survivors, 27 in all.

Enrique De Lara, the Dominican boy who confessed to the police after having been tracked down by detectives that he was the murderer of Arturo Ascencio, the priest from Santo Domingo, who was found dying in Central Park, N. Y., on September 14 with a bullet hole in the base of his skull, had to go thorugh the thorny path set for murderers in police curriculum yesterday and found himself finally in a cell at the Tombs. A document which Assistant District Attorney Du Vivier had compiled during the small hours of the morning when the boy was being examined at police headquarters contained his confession of murder.

Luffenholtz, a town of several hundred people near Eureka, Cal., has been destroyed by forest fires which are sweeping all the mountain ranges in the vicinity and its inhabitants barely escaped with their lives after running miles through a trough of burning forest.

Governor Haskell's Answer.

Guthrie, Okla., Sept. 24.—Oklahoma gasped today when it read President Roosevelt's reply to William Jennings Bryan's telegram and Governor Haskell's public statement in reply to the president. The sensation of Haskell's statement is the following:

"Were I to adopt the character of language so commonly used by the president, I would called it (Roosevelt's statement)' in fewer letters than 'falsehood.'"

Haskell's statement follows:

"President Roosevelts letter is before me, and while this is the first time in my life I have been made the subject of a cabinet meeting, I am thankful for the distinction and I wish to explain my high regard for the office of president and my profound respect for the wisdom of our fathers in making it possible to change the occupant of that high office every four years without the right granted to a crown prince to succeed the king.

"I assert it is fair for me to assume if my case was to be dignified by an all-day cabinet meeting that, by the decision, Mr. Hearst and his campaign associate, President Roosevelt left no stone overturned to blacken my character. That being true, they certainly raked Ohio fore and aft concerning the Standard Oil cases of 1892 and finding absolutely nothing reflecting on me, the president tried to waive his charge of last Monday aside by saying he will make no allusion to that. He drops this subject because his original statement was untruthful.

"I say now that the president knows now that my statement is true, and I regret that he tries to brush it aside with out doing me justice. Were I to adopt the character of language so commonly used by the president I would spell it in fewer letters than 'falsehood'.

"Mr. Roosevelt, I hope to speak in Ohio soon. May I hope to divide the time with some partisan of yours or Prince William, who will defend your action in this instance?

"President Roosevelt comes to Oklahoma and finds a substitute for his Ohio failure in the case of the state against the Prarie Oil and Gas Company which he complains I compelled to be dismissed.

"Yes, I did have it dismissed. We all know that the Prarie Oil Company is a Standard Oil offspring, and the president claims to have known this also and I charge that the political allies. Hearst and Roosevelt, both know that I acted properly.

"First, the Prarie Oil Company got its franchise in our state, not from me, but from Roosevelt's secretary of the interior, long before statehood began, and had its main line built and operating, and Congress in our statehood bill was careful to declare that our new state must respect all such vested rights and existing franchises. That was all I did, and the federal courts stood ready to call me down if I violated the Roosevelt territorial franchises.

"Now, Mr. President, why did your secretary of the interior grant what you knew to be a Standard Oil pipe line franchise in our then helpless territory and fasten it in our new state by a permanent statehood bill? Will Mr. Hearst or the president please answer?

"Knowing all these things, the president must pardon us for thus taking issue with the occupant of the high office we all respect.

"Let us hope that in the future he will appreciate and preserve its dignity and not try to reflect upon the character of a humble citizen. We fail to concede his false position when he knows it is false.

C. N. HASKELL.

Baltimore, Sept. 24.—It is evident from the president's first charge against Governor Haskell and his reply to Mr. Bryan that there is a systematic effort upon the part of the republicans to divert the present fight from issues of the campaign to other things—they are trying to make issues of men."

This is the opening comment made by Democratic Vice Presidential Candidate John W. Kern, today, when asked to discuss the reply of President Roosevelt to Mr. Bryan's telegram of Tuesday.

"They are trying to lead us on and are trying to distract the attention of the people from the democratic platform which they know they cannot successfully assail and develop new issues from some of the men who are continuing the campaign.

"Of course there are rascals in the democratic party. There are rascals in all parties and always will be, and if it is found that Governor Haskell is unworthy, he will have to go. I see that the president has rather evaded the Ohio end of the Haskell affair and now devotes himself to the Oklahoma end. That is the first thing which I noticed about the reply which I see in the morning papers.

"I commented upon the Haskell affair in my speeches last night. I haven't much to add to what I said then. In fact I will not comment further upon the affair. I said then that the president had concluded upon the unsupported testimony of Hearst, whom he holds partially responsible for President McKinley's assassination, that Haskell was guilty of dealing with the Standard Oil Company, and if these things were proven, then Haskell's connection with the democratic campaign committee would have to cease."

Mr. Kern will make another address in Maryland tonight, after which he will go to Mansfield, O., to participate in the opening of the national campaign in that state Saturday.

Madison, Wis., Sept. 24.—Mr. Taft may issue an answer during his present campaign tour to the statement issued today by Governor Haskell, of Oklahoma, in reply to the excoriation by President Roosevelt. Governor Haskell is quoted as stating that the speeches Judge Taft made in Oklahoma a year ago differ widely from his speeches this year. Asked for a statement today regarding the Roosevelt controversy, Mr. Taft said he would not "chip in."

Expelled.

New York, Sept. 24.—Following a searching investigation into an alleged gambling debauch of A. O. Brown & Co., on August 22, the board of governors of the New York Stock Exchange today expelled A. O. Brown and L. Ginter Young, the two board members of the brokerage concern. Following the announced expulsion of Brown and Young, their seats on the exchange were ordered sold forthwith. This drastic action, it is believed, will prevent any future repetition of such "wash sales" that marked the downfall of A. O. Brown & Co.

Bryan and Haskell.

Columbus, O., Sept. 24.—Reading before he had emerged from his bed, President Roosevelt's reply to his telegram, William Jennings Bryan declined to comment on it, when he finally made his appearance at breakfast today.

"I have only had time to glance at this," he said, "but when I get an opportunity to examine what the president says, I will be able to answer any questions he puts to me."

So far as President Roosevelt's allegations against Charles N. Haskell are concerned, Bryan is not troubled. He has given Haskell time to prove his innocence of the charge that he is an agent of the Standard Oil Company, and failing in that, Bryan has openly declared Haskell will be forcibly removed from any position in the present campaign. But President Roosevelt's declaration that he is unfitted to be president and the evident inclination of the president to fight Taft's battle himself interests the democratic candidate.

Bryan is now considering the advisability of eliminating Judge Taft entirely and paying attention only to Mr. Roosevelt.

It seemed certain for a time this morning that Haskell would be removed as treasurer of the democratic committee. Bryan would have done this before now had not certain democrats demand that he be given a chance to prove that the charges are not true. These men came to Mr. Bryan and again declared that fact. Mr. Bryan refused to do so. He went farther even than have his opponents and declared Haskell must show his own "clean bill of health" or he would be removed from office and publicly discredited.

On coming into Ohio, Bryan has discussed Mr. Haskell at length with the men who know him best. He has been the recipient of much advice, but he personally has not expressed any opinion or forecasted his action. So the matter has resolved itself into the original proposition as set forth at Detroit: "If Haskell is in any way connected with Standard Oil, he will be driven out of the party; if he can prove that he is not, he will remain."

Threatened Cholera Epidemic.

Paris, Sept. 24.—Threatened by a cholera epidemic throughout the whole of Europe next year, the health authorities of the various capitals are adopting the most elaborate precautions they have ever undertaken to keep the disease out of their borders. The winter's cold is expected to check the disease before it becomes serious outside the czar's territory, but that there will be another and more serious outbreak in the spring there is little doubt. For four or five days the disease has appeared regularly every summer in Astrakhan, but it was not until this year that it assumed the proportions of an epidemic. Official reports have been so meager and conflicting that no accurate figures can be given, but it is roughly estimated that there have been 20,000 victims of the disease throughout the empire, with a death rate of nearly fifty per cent.

St. Petersburg, Sept. 24.—The spread of cholera into the aristocratic section is causing thousands of people of the well-to-do class to flee from the city. Today all the railway trains were crowded with outgoing passengers, many of whom are going abroad until the plague abates. There is also a heavy exodus among the poor people, many of whom, unable to hire passage, are walking to the country districts. The cavalry school was closed today as the result of the ravages of the disease among its pupils. This institution is attended largely by the sons of the nobility and fifty cases developed there in one day. One of the servants in the czar's palace, at Peterhoff, has been stricken, and cases are also reported in the home of grand duke Nicholas Nicholavitch, the Tauride palace, and the Imperial Opera House. Two hundred new cases were reported up to noon today and the total number for the day will undoubtedly reach 400. The new cases are of a more malignant type.

The Franco-Spanish Note.

Paris, Sept. 24.—As a result of the receipt of Germanys answer to the Franco-Spanish note respecting Morocco, there is a feeling in the Foreign Office today that the note will be accepted by the signatories to the Algeciras treaty with pratically no amendments. Germany will request that in the matter of indemnity the low ebb of Moroccan finances be considered so as not to embarass Mulai Hafid, the new sultan in working out his promised reforms. Germany may object, also, to the occupation of Moroccan territory by the French until this indemnity is paid. Both of these points, it is confidentially believed, can be amicably adjusted.

Forest Fires.

Bangor, Me., Sept. 24.—Dread of forest fires has practically demoralized traffic on the Bangor and Aroostook Railroad. Freight trains which throw off showers of sparks, are being run only at night when the dew is on the ground and very fine screens have been placed on the locomotive smokestacks of passenger trains to prevent hot cinders from falling in the tinder dry bush.

LETTER TO JOS F ROGERS

Alexandria, Va.

Dear Sir: Here is a story that tells the fact as truly as if it were true.

At the time when President Lincoln was shot, in 1865, a man had three houses alike, in like condition, and situated alike. He meant to find out, by experiment, which of three paints would prove most profitable.

He painted the first house lead-and-oil, the second Devoe, the third another good paint; and, afterwards, painted each house when required, for thirty years, with the paint he painted it with at first.

He got 25 gallons of each for the job; had 1 gallon left on the first house, and 4 on the second; but had to get 7 gallons more for the third. He was surprised at the difference; he had expected one paint to go as far as another.

The costs of the several paints by the gallon were not far apart: lead-and-oil $1.60; Devoe $1.75; the other paint $1.50; and the cost of all three was the same for labor, $3 a gallon.

Lead-and-oil he has painted once in three years, Devoe once in six, and the other paint once in five years.

Any schoolboy can reckon his costs for those three houses for thirty years; that's a business man's lifetime.

Lead-and-oil	$1161 00
Devoe	498 75
Other paint	864.00

And the story is just as good as if it were actual history. Paint is so profitable that even dear paint is cheap; but half the money paid for paint is thrown away by using weak paint, supposed to be cheap, but is dear.

Strong paint is cheap; weak paint is dear; the least-gallons paint is the most economical paint; Devoe.

Yours truly,

F W DEVOE & Co.

A CROWN OF GLORY

As Well as a Mark of Beauty is Luxurious Hair.

It has been truly said that the crowning glory of our race is a luxuriant head of hair.

It used to be thought that this was one of the blessings which the gods bestow capriciously, and it is only recently that scientists have discovered that its beauty is dependent upon the absence of a minute germ which flourishes in the hair follicles, where it destroys the life of the hair.

To restore this life and kill the germs which cause the mischief is the mission of Newbro's Herpicide.

Herpicide surely kills the germs, and is the best hair dressing on the market.

It contains no grease or oil, neither will it tain or dye.

Sold by Ernest L. Allen & Co., agents. Two sizes 50c and $1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. 97

New York Stock Market.

New York, Sept. 24.—Brokers watching the trading on the decline said the assumption that selling had come from the same sources that were noted as liquidating a week ago was wrong. Traders were aggressive on the bull side and as soon as stocks were offered at decline bought freely. After a moderately firm opening the market became heavy, yielding all around.

PULL OUT A HAIR.

The Way to Tell if Your Hair is Diseased.

Even if you have a luxuriant head of hair, you may want to know whether it is in a health condition or not. 98 per cent of the people need a hair tonic. You can make a test yourself that you can see and understand, which will tell whether your hair is healthy or not. Pull a hair out of your head, if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want everyone in Alexandria whose hair requires treatment to try our Rexall "93" Hair Tonic. We promise it shall not cost anything if it does not give satisfactory results. Rexall "93" Hair Tonic is designed to overcome dandruff, relieves scalp irritation, to stimulate the hair roots, to tighten the hair already in the head, grow hair and cure baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 93 heads, which should be sufficient proof that Rexall "93" Hair Tonic contains extraordinary curative and hair growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you try it at our risk.

Rexall "93" Hair Tonic is a clean, clear preparation which does not grease, gum or thicken the hair, and it has a very pleasing odor. We have it in two sizes, prices 50c and $1.00. W. P. Taylor, 616 King street.

POLITICAL.

Twelve speeches to large crowds marked the second entry of William J. Bryan into Ohio during the present campaign. His concluding speech was made at Columbus last night to an overflow crowd, while just previously he had addressed an audience at Memorial Hall.

In two speeches last night in Baltimore, the first at the Princess Theater and the second in Cross street Market Hall, Mr. John W. Kern, democratic candidate for vice-president of the United States, said that if the charge that Governor Haskell, of Oklahoma, treasurer of the democratic national committee, is or has been connected with the Standard Oil Company, he shall sever his connection with the national committee. Until the charge is proven Mr. Kern asked for fair play for Governor Haskell He closed his speech with a tribute to Mr. Bryan.

Senator La Follette is no more the political ruler of Wisconsin. After a two days' session, the republican state convention at Madison, yesterday, elected E. A. Edmunds, a wealthy paper manufacturer and the campaign manager of Senator Stephenson, to be state chairman. La Follette was defeated by a vote of 68 for Edmunds to 46 for A. C. Backus, of Milwaukee, his candidate.

The bitter feud in the republican party in West Virginia following the dual conventions and rival state tickets placed in the field last July, headed respectively by Charles W. Swisher and Arnold C. Scherr, was ended last night, when following the withdrawal of Swisher Monday night, Mr. Scherr and his fellow candidates on the Lincoln republican ticket agreed to retire in favor of the new candidate of the regular republicans, William E. Glassock. The other state candidates of the regular faction stand as nominated last July.

Mr. Taft yesterday started on his western speech-making tour, making his first address at George Ade's farm, in Indiana, on the way to Chicago, where he spoke on his friendly attitude toward labor interests when on the bench and in charge of Panama canal work.

Snaefell foot hill, both the driver and mechanician being seriously injured. W. W. Watson, driving a Hutton car, won the race. Shortly before the end of the race there was another serious accident when a machine driven by Reed ran into the wall. The driver was badly injured. ENGINEER SHOT.

While returning to his home in this city on an engine last night Mr. Fred Mumford, a Southern Railway locomotive engineer, whose home is on Commerce street, was shot in the left side of the head, just above the ear. He continued to this city on the engine and went to the office of Dr. M. W. O'Brien where he received temporary treatment, and then went home. Late last night the bullet, which is supposed, from the size of the wound to be of .22-caliber, had not been extracted, though it was asserted it had not penetrated the skull. Mr. Mumford was not able to say whether the shooting was accidental or intentional. He declared he saw two men in the marsh near the south end of the new highway bridge over the Potomac, and one of them raised a gun or a rifle and pointed it toward the engine an instant before he was struck. He believes he was shot by an amateur gunner.

In the presence of a large gathering, including many ladies, the annual inspection of the newly organized Alexandria Light Infantry, designated as Company G, First Virginia Regiment, commanded by Capt. F. L. Slaymaker, was made last night in Armory Hall by Col. Jo Lane Stern, inspector general of Virginia. Fifty three members were in line, and the new soldier boys made an excellent showing. Maj. James E. King and his staff were also inspected.

Col. Stern said this inspection was the best showing made by G Company for a long time. He also said he had heard reports of the good record made by both the new company and the 2nd Battalion, commanded by Major James E. King, of which the new company is a part, at the Chickamauga encampment this summer. Regular drills will be resumed next week in the khaki service uniform.

COMPLAINT HEARD.

Mayor Paff was this morning notified by citizens of the western section of the city that they were tired of Henry and Fayette streets being made a dumping ground for every circus or carnival which comes to this city. In the first place the tracks have been discarded by the railroad companies and are not used to benefit anyone in this city. The people along this thoroughfare are in bad humor today, caused by the unloading of another circus on these streets, interferring with business and disturbing the quiet which usually prevails there. Mayor Paff took the matter in hand and it is thought the nuisance will be stopped. The complaint comes from property owners and business men along those streets.

FOG CAUSES ACCIDENTS.

This morning about 6:50 the annex train used to convey passengers to and from the Potomac yards ran into the rear end of a freight train near the Potomac yards and scared those on the annex train considerably. It is said that the engineer was badly injured and is still unconscious. Mr. Harry Hudson, of this city, who is employed at the yards, had his back badly wrenched. Mr. John Harrington was cut up quite badly receiving serious injuries to his limbs.

GEO. WASHINGTON PARK.

Section 2 of George Washington Park, running from King street to Fort Ellsworth, has been surveyed and mapped by Engineer D. J. Howell. There are about 250 lots in this section, of which about 100 have been sold, with the privilege of allowing each purchaser to secure the adjoining lot. When the remaining lots are disposed of there will be no more lots to be had in George Washington Park. Those wishing to avail themselves of the chance of purchasing an additional lot can do so by interviewing the secretary. A handsome map of section 2 is on exhibition at the office of the association and small ones are at the disposal of those who have bought lots.

THE ARMORY CONTROVERSY.

It is reported that Gov. Swanson has declined to furnish Capt. Murphy and Lieut. Domaine, of the Alexandria Light Infantry, recently disbanded for alleged inefficiency, a copy of a letter written by Maj. J. E. King, of this city, to Col. Perry, of the First Regiment, recommending the disbandment of the company. The reason given by the governor for declining to furnish a copy is that the letter was a personal one addressed to Col. Perry and has not been made a part of the record in the matter. A few weeks ago Capt. P. J. Murphy of the Light Infantry received a letter from the governor stating that he had ordered the adjutant general to turn over to Capt. Murphy a copy of all letters and correspondence in relation to the disbandment of the company. On Tuesday Captain Murphy received a letter from the governor in which he states that he cannot turn over to the captain a copy of the letter written to Colonel Perry by Major King as the letter was of a personal nature. The officers of the company are at a loss to understand the reason for the governor's action, inasmuch as in his report to the adjutant general recommending the disbandment of the company, Colonel Perry states that he is in receipt of a letter from Maj. King, recommending the disbandment of the Alexandria company.

Following the tournament a big barbecue was served and prominent speakers delivered addresses. The coronation address was made by Mr. Brooke Hunter, of Maryland. The following were the successful knights: C. M. Bell, who rode Baltimore Boy, crowned the queen; E. M. Palmer, Georgetown Boy, crowned the first maid; J. A. C. Blanford, Budweiser, crowned the second maid; Thomas Head, Knight of Munson Hill, crowned the third maid.

MISCELLANEOUS.

The cruiser Yankee, flagship of the Atlantic torpedo division, is on the rocks at the entrance of Buzzards bay with a serious gash in her bottom.

Leaving a last address, to "The insatiable press and the foolish public," George Lewis Wellington, graduate of Annapolis and nephew of U. S. Senator Wellington, of Maryland, committed suicide at New Orleans by chloriform.

At the meeting of the Colored National Baptist Association composed of the negro leaders from all parts of the world, in session at Lexington, Ky., a resolution was passed on Monday giving approval of a negro doll factory recently started.

Mrs. John Wisecarver and her two children had a narrow escape from being burned to death in their home near Stephens City, Tuesday, when the house and contents were burned to the ground. The woman and children were taken from the burning building by Samuel Cook, a neighbor, just as the walls fell.

"Hampton," the beautiful and historic home of the late Col. John Hampton de Jarnette, of Caroline county, about three miles from Milford station, has been sold to Mr. Walter E. Poynor, of Pennsylvania. This is one of the most attractive properties in eastern Virginia, the lawn and grove fronting the house being one of the oldest south of Philadelphia.

Ruth Adams, 16 years old; Mamie Deno, aged 19, and H. M. Lovingston, and Bernard C. McCall, all members of repectable families, were arrested Tuesday in Newport News, and were taken back to Richmond Tuesday afternoon, when a double marriage was performed in police court. The men were charged by the Deno girl's father with abduction. The two couples left Richmond Monday aboard the steamer Berkely, and when arrested in Newport News they said they were on their way to Norfolk to be married. The men gave assumed names.

August Eberhardt, who shot and killed his aunt, Mrs. Ottillie Eberhardt, and wounded her daughter on July 18 near Rochelle Park was yesterday at Hackensack, N.J., sentenced to 30 years in state prison on a plea of non vult. Eberhardt took his sentence quietly. His aged mother and father who were in the court room wept bitterly. August Eberhardt lured his aunt and her daughter to New York from Germany, decoyed them to Hackensack and shot the elder woman while they were out walking. Eberhardt was to have married the younger woman.

The Cholera.

St. Petersburg, Sept. 24.—At the expense of thousands of lives, a toll to the ravages of cholera, St. Petersburg is to have a new sewerage system. Yesterday was the worst since the present epidemic started. It is impossible to do other than approximate the number of new cases and deaths, as the returns to the health authorities are incomplete and frequently purposely misstated. The authorities say that the deaths are still under 600, but it is known that there have been 450 burials in one cemetery alone. Conservative estimates of the number of the cases put them at 4 500, with the death rate climbing to 50 per cent.

SHE FOUND HIM.

Mrs. Alice Shear, a society woman of Pensacola, Fla., who went to Denver Col., a few weeks ago and there caused the arrest of her husband, Herbert Shear, formerly a resident of Pensacola, and his cousin, Miss Jennie Shear, who were alleged to be living as man and wife, has agreed to stop the prosecution, her husband setting upon her over $20,000, and agreeing to a divorce.

The story of Mrs. Shear is an interesting one. She was married to Shear near Milton, and they resided at Millview for several years, where he was employed by the Robinson Lumber Company. Later he went to Mississippi, and it was while there that he placed his wife in an asylum in Meridian, where she was confined for eight years though she claims she was sane the entire time. A few months ago she obtained her release and went to Pensacola, where she has relatives. Then she began the search for her husband, and, locating him in Denver with his cousin, traveled there and caused his arrest.

A Traveling Man's Experience.

"I must tell you my experience on an east bound O. R. & N. R. R. train from Pendleton to La Grande, Ore., writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whisky. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into La Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into La Grande she was all right, and I received the thanks of every passenger in the car." For sale by W. F. Creighton & Co., and Richard Gibson.
